DANISH KNOWLEDGE • GLOBAL IMPACT

AT THE MOMENT, WE NEED TALENTED YOUTHS, WHO WANT TO BE PART OF A PROUD DANISH TRADITION THAT IS SOUGHT-AFTER ALL OVER THE WORLD.

## ARE YOU READY FOR A CHALLENGING FUTURE WITH EXCITING CAREER OPPORTUNITIES?

### **Do you...**

...want to be part of the Danish food tradition and develop healthy and sustainable quality food products and technological processes?

Then choose a career that allows you to play with technology instead of crying over spilled milk. And if you can find the right chemistry, you can take the lead in the race for exciting jobs within development, production and leadership.

### **Do you...**

...see yourself in a job with a strong network, lots of passion and wide-ranging projects?

With a MSc in Dairy Science and Technology you can skim the cream off jobs in a career where you can make a real difference.

With a **MSc in Dairy Science and Technology**, you are in for a future that abounds in both challenges and career opportunities. You will become part of Denmark's food narrative, will develop healthy and sustainable quality foods and technological processes, and your daily round will be characterised by an extensive network, a burning passion as well as varied work tasks. This unique knowledge platform of processes and products opens the doors to an **exciting career**, where you

can work with administration, process management, customer relations, sales and marketing or consulting. You can also choose to get to the bottom of the science behind the ingredients or get engrossed in research. You have **a multitude of options** in front of you and the certainty that a dairy engineer training has international recognition. You quite simply get an entry pass to several dynamic jobs and job functions in both **Denmark and abroad!**
