

Karrierebussen hos Q-Interline

Med Anders Larsen og Laura Kamstrup Helwich

Dagens program

- Velkommen!
- Præsentation af Q-Interline
- Rundvisning på Q-Interline
- Præsentation af InsightPro og DairyQuant GO
- Arbejdsopgaver for en mejeriingeniør
- Muligheder for studerende hos Q-Interline

Q-Interline – what we do:

We help our customers...

- to utilise raw materials better
- to improve production efficiency
- to reach higher product quality and happy customers
- to earn more money to the owners

Q-Interline - experience from many industries

Dairy

Generate more profit –
Control your process

Agriculture

Correct sampling and
analysis of agricultural
products

Food & ingredients

Versatile analysis of food
products

Chemical

Spectrometers for
laboratory and process

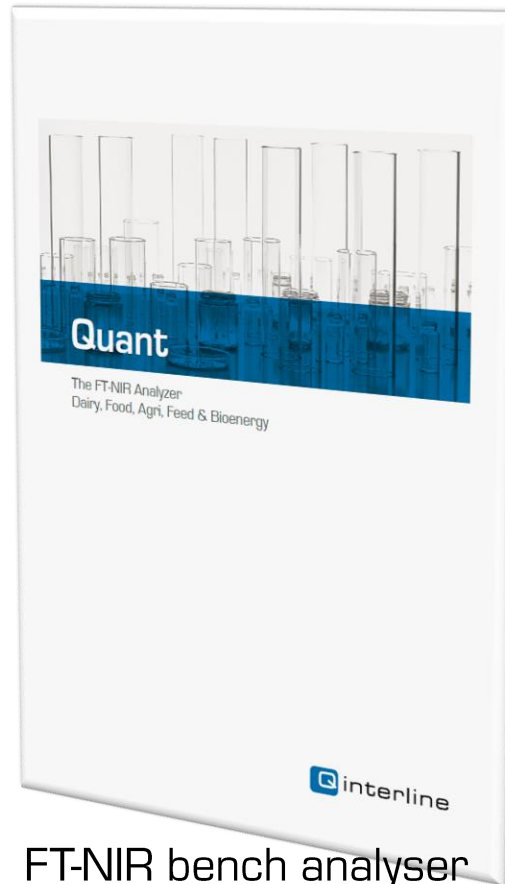

Pharma

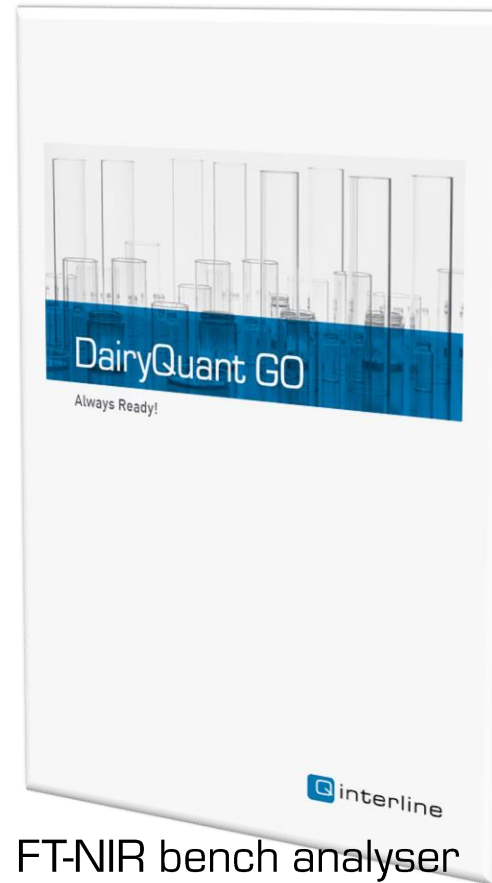

High-end analytical
solutions for the
pharmaceutical industry

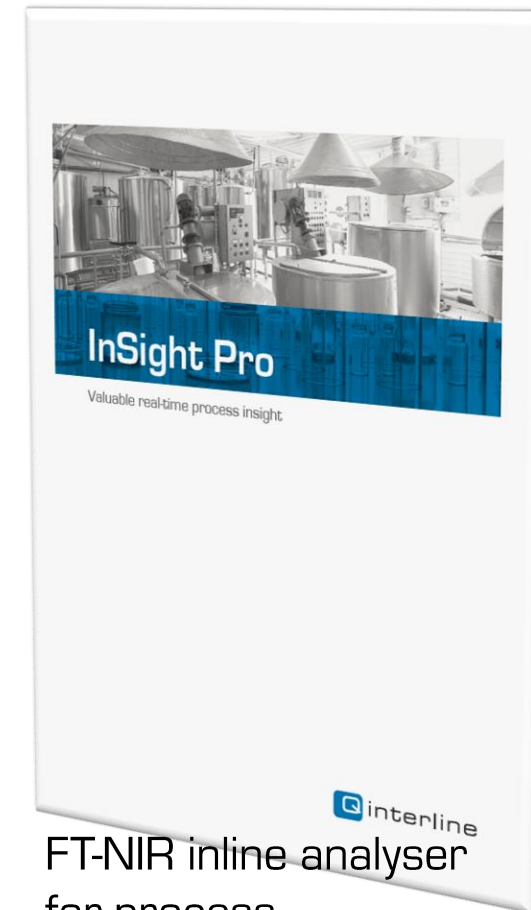

What we offer

FT-NIR bench analyser
for lab

FT-NIR bench analyser
for lab and process

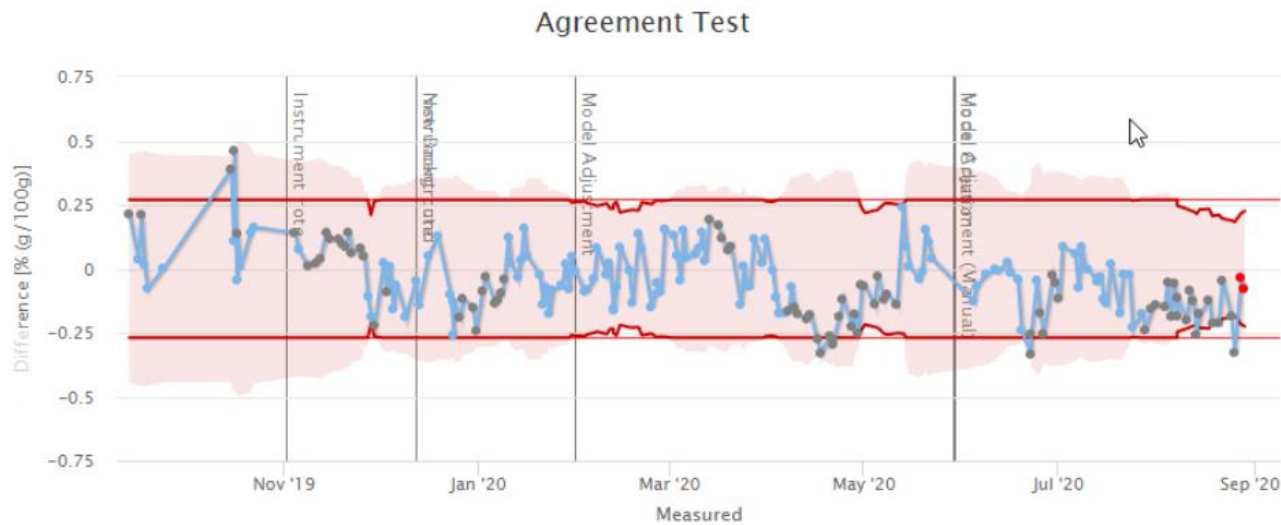

FT-NIR inline analyser
for process

AnalyticTrust – Analysis Quality Management

- All Q-Interline systems can link directly to AnalyticTrust
- Trusted results – every time
- Easy and safe monitoring – Automatically hardware and calibration model surveillance
- Put your structure in one place
- Establish your Local and Global QA plans
- Increase your daily productivity

✓ Analyser
✓ Laboratory
✓ Sampling
✓ Precision
✓ Agreement

The basics

- Danish family owned company - founded in 1996
- Staff with experience and know-how
- Sampling experts – Patented sampling solutions
- Systems sold in 39 countries worldwide
- ISO 9001:2015 certified
- Dedicated, competent and honest

Setting new standards for analytical solutions

Our Customers

Virtuel Rundvisning på Q-Interline

Quant – Lab analyser with endless possibilities

1 Analyser

10 Accessories

100's of Applications

1000's of Calibrations

- Exceptional spectral performance with FT-NIR
- 3 years standard warranty
- No scheduled maintenance
- 10 years average lifetime on NIR lamp source
- Global service/support and 24/7 remote surveillance
- Concept 1 – same analyser for lab and inline process

DairyQuant GO – Changing milk analysis

The DairyQuant GO challenges the traditional FT-IR analyzers – We call it milk analysis 2.0

- Always ready! No cleaning between analysis
- No annual hardware service
- Avoid carry over between samples
- Everything from skimmed milk to mascarpone
- Predictable workday
- Run the lab your way
- Always trusted results – no instrument drift
- Based on patented Pivette™ - disposable measurement cell

The Pivette is simply filled, analysed and discarded

InSight Pro – Know more – Do more – get more

- Real time Process Analysis
- Faster production start-up after cleaning
- Better process control
- Better documentation
- Concept 1 - Same base platform as lab units – re-use calibration data.
- One or two measuring points
- Any mix of measurement probes – before/after a process
- Operator panel – know it where you need it

En Mejeriingeniørs arbejdsopgaver

- Rolle som Product Manager:
 - Projektbaseret arbejdsform
 - Tæt kontakt til kunder
 - "Helikopter-rolle": Inkluderet i mange typer projekter både internt og eksternt
 - Samarbejde med både udvikling-, salg-, kommunikation-, support- og teknikafdelingerne
- Stor brug af viden og skills fra universitetet
 - Mejeriingeniører har en utroligt bred viden, som jeg dagligt bruger:
 - Produkter og processer, opbygningen på et mejeri, roller på mejeriet inkl. de vigtige elementer for forskellige personaleafdelinger (operatører/mejerister, laboranter, kvalitetschefer, ledere etc.)
 - Mejeri-eksperter i Q-Interline

Muligheder for studerende

- Studieaktiviteter:
 - Pointopgaver, Bachelor-projekter, og specialer
 - Studiejobs
- På sigt vil Q-Interline få behov for flere mejeri- og fødevareingeniører
